Save with it.

Time is money—and accuracy is everything. You don't have to be a Tax Genius to improve on all three.

With faster, more reliable data input and deep error checking, you can spend less time reviewing your work—and more time helping your clients.

- Fast data entry methods based on your preference
- Seamless data flow between Federal and State forms
- More than 1,000 diagnostics help you find errors and streamline quickly
- Fast error identification and resolution with on-screen error tracking and direct links to questionable entries

New for 2006: Scan your client data directly into ProSeries

Introducing ProSeries Source Doc Auto Entry This innovative new functionality enables you to scan your clients' W-2 and 1099 forms to allow data to flow directly into the proper fields of each return—which, of course, reduces manual data entry and saves you valuable time.*

Watch the ProSeries Source Doc Auto Entry demonstration on the CD now. Or call 800-945-2820 for details.

*Not available. Requires an internet connection to ProSeries.

Benefit from it.

See what ProSeries can do for your practice.

Your ProSeries evaluation starts here.

- With the enclosed QuickStart Card and your free disk, you can begin using ProSeries today.

Insert the disk for your demo and full-product software to get started.

Get more from your ProSeries software purchase, with:

- FREE comprehensive disk consultant session
- FREE one-on-one online training
- FREE on-site training

Count on it.

ProSeries software delivers reliability that's crash-tested, Time-tested. And independently tested.

Leverage Intuit's history of stellar software performance, proven e-filing systems and outstanding up-time record.

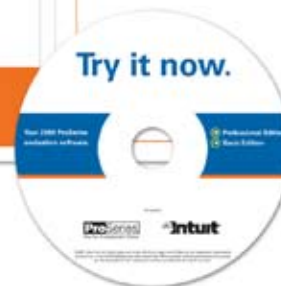

- More than 100,000 hours of testing by our dedicated ProSeries Quality Assurance team help minimize crashes and data loss
- One in every three e-filed IRS returns is processed using Intuit's superior e-filing system
- ProSeries e-filing servers have experienced less than 20 minutes of total unscheduled downtime in the past three years
- Third-party testing provides a triple check for performance at the highest levels to ensure peak-on readiness

Your choice of ProSeries also makes sense—long after you buy it—with built-in help and exceptional, knowledgeable support that's there when you need it, including:

- Full-time U.S.-based technical support from representatives with expertise in both software and the tax and accounting industry
- Answers your way. By phone, online chat, email and our convenient call-back option—with extended hours during peak seasons
- Built-in tools such as Live Service Tip Help, Government Instructions and our new "Where Do I Enter?" search tool for immediate assistance
